PROJECTS

Study Material Upload Platform <i>Academic Project</i>	[Dec 2024]
--	------------

- Designed and developed a web-based platform for uploading, managing, and accessing study materials, similar to Google Classroom.
- Implemented user authentication and role-based access control to differentiate between students and instructors.
- Enabled organized content upload and retrieval to improve accessibility of study resources.
- Worked on frontend-backend integration using web technologies.
- Explored basic deployment concepts and application hosting workflows.

Face ID / College ID Based Attendance Management System <i>Academic Project</i>	[Nov 2025]
---	------------

- Developed an automated attendance management system using face recognition and college ID verification.
- Reduced manual attendance errors by implementing automated identity verification.
- Designed backend logic for storing and managing attendance records.
- Focused on data storage, validation, and basic security considerations.
- Gained experience in system workflow design and real-world problem solving.

EXPERIENCE

Freelance Web Developer / DevOps Learner

2023 – Present

Freelancer

Remote

- Worked on college and small freelance web application projects, focusing on frontend development and basic backend integration.
- Assisted with deployment of web applications and explored cloud-based hosting platforms.
- Used Git and GitHub for version control, collaboration, and project tracking.
- Gained hands-on exposure to DevOps fundamentals including Linux environments, Docker basics, and cloud services.

Google Cloud Skills Boost – Hands-on Labs

2023

Google Cloud Arcade / Skills Boost

Online

- Completed hands-on labs covering core Google Cloud services such as virtual machines, cloud storage, and IAM basics.
- Practiced deploying and managing applications in cloud-based environments through guided lab exercises.
- Gained foundational understanding of cloud infrastructure, networking concepts, and security basics.

EDUCATION

Bachelor of Engineering, KS Institute of Technology, Bengaluru

Expected 2027

CGPA (Upto 3rd semester): 8.28

Class 12th, ICSE Board, St. Joseph's School, Gorakhpur

2022

Class 10th, ICSE Board, St. Joseph's School, Gorakhpur

2020

ADDITIONAL INFORMATION

Achievements

- Earned 40+ verified badges on Credly through Google Cloud Skills Boost in 2024 by completing hands-on labs focused on cloud fundamentals, virtual machines, storage, IAM basics, and introductory deployment workflows.
